

RESOURCE RESEARCH

Use this handout as a guide to help you gather information about your chosen problem. Divide the work among the members of your group as indicated. Add your name to your assigned section of the table and complete that section. To avoid blogs or biased information, use primarily **.org**, **.gov**, and **.edu** websites for your research. Add the information to the table in your own words. When you finish filling out the table, review everything as a group. Then, turn in this document to receive teacher feedback.

Problem/Area of Focus: _____

Information	Assignee	Notes
Where does the problem occur?	Group member 1 Name:	
Why is this resource limited?	Group member 1 Name:	
What is the science behind the problem?	Group member 2 Name:	

Information	Assignee	Notes
<p>What tools have been used to combat this problem in the past? Find 2–3 tools.</p>	<p>Group member 3 Name:</p>	
<p>What are some ways to combat this issue in the present?</p>	<p>Group member 4 Name:</p>	
<p>What type of tool needs to be created to fix the problem?</p>	<p>All group members Names:</p>
