

30-SECOND EXPERT T-CHART

In the left column, write down as much as you can about what you already know about the causes of WWII. When you have finished, you will share your knowledge with a partner and your partner will share what they know with you. Once you have had a chance to share with your partner, fill in the column on the right with everything you have learned from your partner.

What do I know about the causes of WWII?	What I learned from my partner.
