

STUDENT SIGN UP SHEET

This sign-up sheet is for the Explore phase of this lesson. Students should choose the type of alternative energy they want to research. Students who choose the same type of energy will be in the same group as a "company."

Memo

To: Leaders in alternative energy

From: The town of Greeneville in the great State of Conservative

Our town is facing an energy crisis!

Natural gas/coal supplies are too low and carbon emissions are too high. There will be a public town forum to discuss alternatives in a few days. We are inviting you to speak at the forum based on your expertise in alternative energy.

You will have 20 minutes to convince the town council to invest in your alternative energy. After all alternative energy proposals have taken place there will be a question and answer session. The next morning the town public will vote for the best alternative energy fit for their town. Thank you in advance for helping our town during this time of crisis. We look forward to hearing from each of you.

Sincerely,

Citizens of Greeneville
