

ALTERNATIVE ENERGY RESERCH/PRESENTATION GUIDELINES

- Name your energy company
- Time for presentation → 20 minutes
- Visual Aid → pictures, poster/flyer, PowerPoint
- Supporting research (minimum 3) → articles from internet search, include in a reference page using APA or MLA format
- Benefits – try to include costs and savings
- Address misconceptions of your alternative energy resource
- General process description of this form of alternative energy
- As a group decide on presentation style and who will be doing what during the presentation – all members must participate in some way during the presentation
- Prepare 3 questions for each form of alternative energy to use during company presentation Q & A sessions, include a reference page using APA or MLA format
