

MAGNETIC STATEMENTS MINI POSTERS

“The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together.”—Barack Obama

MAGNETIC STATEMENTS MINI POSTERS

“Culture makes people understand each other better. And if they understand each other better in their soul, it is easier to overcome the economic and political barriers. But first they have to understand that their neighbor is, in the end, just like them, with the same problems, the same questions.”—Paulo Coelho
