Top Five Reasons to NOT Eat Bacon

1. Bacon is made from pigs. Pigs lie in the mud. It's just gross to eat something that has lain in the mud.
2. Bacon is full of fat and salt. These things have been proven to be bad for your heart and your health. The grease gets everywhere when you eat it.
3. Pigs are pink and cute. There are plenty of other animals that you can eat instead. Maybe try turkey bacon.
4. Pigs are raised on farms. Those farms stink because of all of the manure. If we ate less bacon, there would be fewer pig farms and less bad smells.
5. When you cook bacon, the grease pops and can burn you. Also, the smell of cooked bacon stays on your clothes.
