Any further comments for the scores above?

Class was too hard, too much reading

Sometime it didn't seem like you knew what you were doing with websites or apps.

I liked it when you gave handouts on paper

I never really used the class website. It didn't have much on it I needed. Mrs. Myers didn't really understand website she showed us in class. Had to ask students for help all the time with online stuff and the smartboard

Sometimes we moved to fast

Websites used in class were boring and teacher really didn't know how to use the Smartboard correctly

Wish we had some examples of what you wanted with big projects
